Boeders Garden Design provides a range of commercial/industrial landscape design services.

As a business or developer you want to create the most appealing environment for your employees and especially to your potential customers. Enhancing your facility or project with professional landscaping provides many benefits. Improved ambiance for both staff and clients ensure your business presentation within the community is of a high standard.

At Boeders, we offer personalized service to meet the individual needs of each of our clients and work within their budgets.

Your satisfaction with our services is most important to us. Our objective is to do not only what we agreed to do, but also to continually anticipate your company's special needs as they arise.
